The committee on case Rev. P. G. Bowman, reported as follows :

After consultation upon the case, as presented in the documents that were submitted, the committee unanimously agree to the following decision, viz : The discipline directs that the charge of holding and disseminating doctrines which are contrary to our recognized standards of doctrine shall be subject to the same process as in the case of immortality. In the present case, the accused not appearing, and having pleaded guilty to the charge before the committee of investigation, the court are obliged to find Rev. P. G. Bowman guilty, and in accordance with the law of the Church, pronounce him expelled from the communion of the M. E. Church, South. The court is not satisfied to pronounce this sentence without accompanying it with the expression of the deep regret they feel in performing so painful a duty. To our erring brother we have no sentiments but those of personal regard and Christian affection, and this duty is not performed in the spirit of revenge or prejudice, but from a desire to preserve the Church from all corruption of doctrine. For a brother who has been so long connected with us in the work of the ministry, we shall always pray that God will bring him to see his error, and give him repentance to the acknowledgment of the Church, and restore to him the joy of his salvation.

The Treasurer of the Missionary Society reported, as information, that the amount collected for Missions during the past year to have been but \$2,830 09, compelling a settlement with the Missionaries, in connection with the Conference, at only thirty-eight per cent. on their claim.

Conference adjourned to meet at half-past three o'clock in the afternoon.

The Committee on Books and Periodicals recommend a reduction in the price of the Southern Advocate—one dollar to ministers and two dollars for others; also, expressing their appreciation of the ability with which it had been conducted by Dr. E. H. Myers for the last sixteen years, and endorsed the election of Rev. F. M. Kennedy as the successor of Dr. Myers in the editorial management of the paper.

## IV.—REPORTS.

The Committee on Education respectfully submit the following report:

### WOFFORD COLLEGE, SPARTANBURG, S. C.

In October last this College entered on its eighteenth scholastic year with one hundred and twenty-three students in the College and Preparatory School. This is a considerable advance on opening in any previous year. The session has been characterized by general good order and propriety of deportment on the part of the students; whilst their progress in studies for the most part has been satisfactory to the Faculty. The religious condition of the Institution is sound; and the past year, all things considered, has been one of the most successful in the history of the College. Nothing seems to be needed but an improved state of its finances to render the College efficient in the full accomplishment of the laudable purposes for which it was founded.

This state of things, so highly gratifying, affords ground of sincere thanksgiving to Almighty God, whose wise and merciful providence has been over the College, directing and controlling all; nor can our debt of gratitude ever be discharged to the gentlemen composing the Faculty, who have borne it up on their own noble shoulders through the disaster and gloom of the past to where the mellow rays of a bright morning, we trust, illume the orient: while we cannot too highly appreciate and commend the religious and gentlemanly tone and bearing of the students. When we contemplate the past usefulness, the present condition, and the prospective increasing usefulness of Wofford College, surely we may strongly commend it to the sympathy and confidence, the patronage and prayers of our people, and earnestly ask them to aid in sustaining it. The College still needs assistance, and must continue to need it, year by year, unless a permanent endowment fund of not less than \$100,000 can be obtained, the yearly interest of which may be appropriated to its support. If, then, we would sustain the College, we must either raise that amount, or else retain and manage the amount, each one his own separate share, paying the interest only each year. The latter course would be wise and well, if all concerned would promptly meet this yearly claim. The Trustees of the College, after careful inquiry, deem it proper and expedient that the sum of \$6,000 be collected the coming year, which is less by \$2,000 than the amount proposed last year, the main reason of which deduction is that the income from tuition fees is increased; and the Committee, concurring in this view, submit the following resolution, *viz.*:

*Resolved,* That the sum of \$6,000 be collected the ensuing year to aid in sustaining Wofford College, and that to raise the same each district be

assessed, and then each circuit and station in each district; and that we will, as early in the year as possible, attend to this duty, and forward the collections to Dr. Shipp.

When we consider that there will be a large deficiency to meet in the salaries of the Faculty, that the College buildings greatly need repairs, that funds are needed for the purchase of books, instruments, materials and specimens in the different departments, the above amount will not be regarded excessive; and when divided out, the share to be raised by each church or by each person will be very small comparatively, so that no one can feel burdened.

The agency for raising a permanent endowment fund for the College it is deemed advisable to discontinue in the present condition of financial and other affairs in the State; but with the intention of renewal in more prosperous circumstances.

*Resolved*, That it is the sense of this Conference that each member thereof constitute himself an agent to raise funds for the endowment of Wofford College, in accordance with the bonded plan previously adopted by the Conference.

#### COKESBURY CONFERENCE SCHOOL.

It will be remembered that the Conference at its last session provided for the transfer of this school to a local Board of Trustees for educational purposes; but owing to an unintentional failure to supply the names of the Commissioners on the part of the Conference, the proposed transfer could not be completed. This omission, it would now seem, was providential; for it has been the occasion of a communication from our valued friend and brother, F. A. Connor, Esq., Chairman of the Board of Trustees of our Church at Cokesbury, which Board, in the disjointed state of things, kindly and efficiently acted for the school as though the transfer had been perfected, and have attended to needed repairs, and have also selected Rev. Geo. F. Round, of this Conference, as the Rector of the school, asking the Conference to approve their choice. The communication referred to, and one from the Rector elect, express the solicitude of our friends at Cokesbury that the school should be fully restored to its close relation to the Conference, and continue as a High School preparatory to Wofford College or any other similar institution; all of which is highly gratifying to the Committee, and will doubtless be equally so to the Conference.

It is respectfully suggested, in this connection, that a school similar to our time-honored Cokesbury might be instituted in each District of the Conference, or by two or more districts uniting, and we would earnestly commend this subject to the presiding elder, pastor and people of each District.

The Committee submit for adoption by the Conference the resolutions following, viz.:

*Resolved*, That we approve the choice of Rev. Geo. F. Round as Rector of Cokesbury Conference School, and commend the institution to the people as well worthy their patronage and entitled to their confidence.

The Trustees are, F. A. Connor, Rev. Jas. F. Smith, G. W. Hodges, F. F. Gary, S. Leard, S. B. Jones, W. H. Lawton, W. H. Fleming, and J. T. Kilgo.

Should there be vacancies from removal or otherwise, it is the duty of the Board to fill them.

#### SPARTANBURG FEMALE COLLEGE.

The Visiting Committee represent this Institution as having enjoyed a year of marked prosperity. It is equal in all respects to the best institution of the kind in our State. Over one hundred pupils have been in attendance. The government is excellent; the instruction careful and thorough, and the examination and commencement exercises gave entire satisfaction to all concerned. We recognize this College as an admirable school for girls and

young ladies, and warmly commend it to the patronage of parents. The Rev. Saml. B. Jones, well and favorably known in his profession, is President and sole proprietor of this College.

We respectfully nominate Revs. E. J. Meynardie, D. D., R. P. Franks and C. Thomason, as Visiting Committee.

COLUMBIA FEMALE COLLEGE.

This Institution is still burdened with a debt of \$15,000. The building is reported in good repair, and still rented as it was a year ago. Greatly as it is desired that this College should be opened and in operation, carrying forward the all-important work of female education, the Trustees suggest no way of thus resuming proper relations to the Conference and the country, unless it be by means of a proposition made to them by an Insurance Company; which proposition has been put into possession of the Committee to be "submitted for the consideration of the Conference." A somewhat careful perusal of said proposition, it is thought, will lead to this analysis:

1. The Trustees of the College are to obtain \$100,000 in Life Insurance Policies, and collect the whole premium thereon the first year, and pay over these premiums to the Agent of the Company.

2. Henry J. Furber, Vice-President of the Company, is to lend the Trustees \$15,000 for the term of ten years, secured by a first mortgage of the College, with interest at seven per cent. per annum, to be paid semi-annually; said loan to pay the debt of the college.

3. The Trustees are to receive ten per cent. on premiums of first year, and five per cent. on premiums of each succeeding year to pay for collecting.

4. When three years' premiums are paid, the Company will advance \$15,000 to pay Furber's mortgage, taking a lien on the policies, to be paid as these policies mature, the Trustees paying interest as before stated.

5. Should one of the insured cease to keep up his policy, another will be allowed to take his place.

In all this the Company is perfectly secured, whether the Trustees are equally secured does not so clearly appear, perhaps. But the proposition is herewith presented and submitted.

*Resolved*, That in regard to the plan proposed for the endowment of the College, the Board of Trustees be authorized to act according to their discretion in the matter.

The Committee nominate the following persons as Trustees of Columbia Female College, viz.: J. W. Kelly, M. Brown, A. J. Cauthen, J. H. Zimmerman, W. T. Capers, O. A. Darby, W. H. Fleming, H. A. C. Walker, A. M. Chrietzberg, E. J. Meynardie, S. H. Brown, R. P. Franks, T. G. Herbert, J. W. Parker, L. D. Childs, T. J. Lamotte, R. D. Senn, E. T. Rembert, W. L. DePass, Wade Hampton, Sr., J. H. Kinard, R. E. Shiver, C. H. Baldwin, J. H. Kinsler, W. S. J. Ried, Jas. E. Black.

In compliance with the order of Conference, the Committee nominate for the Conference Board of Missions as follows, viz.:

Chas. Betts, A. M. Chrietzberg, H. M. Mood, C. H. Pritchard, Samuel Weber, Thos. Raynor, W. P. Mouzon, D. J. Simmons, J. H. Zimmerman, W. H. Lawton, Landy Wood, W. A. Clarke, Dr. E. T. Rembert, Dr. A. English Williams, Dr. N. Kirkland, J. E. Carraway, Jas. Stokes, H. T. Wright, and *ex officio* the Presiding Elders.

This Board appoints its own officers.

The Trustees of Wofford College are now to be elected in accordance with the will of the Founder of the College, requiring a biennial election, and as it is desirable that the Board should be as permanent in its organization as may be, it is hereby recommended that the Conference reelect the present Board, viz.:

Bishop W. M. Wightman, A. M. Shipp, H. A. C. Walker, Chas. Betts, Wm. Martin, W. P. Mouzon, H. M. Mood, Simpson Bobo, Harvey Wof-

REPORT OF SUNDAY SCHOOL BOARD.

G. H. Wells, Chairman of Sunday School Board, presented the following report:

The Sunday School Board are pleased to report a largely increased interest in the Sunday School work in every part of the Conference:

We regret the absence of statistics, which if we had, would show conclusively the increased exertions everywhere in this delightful work of the Church.

The statistical reports in our Minutes are referred to as bearing us out in our report of the growing interest of Preachers and people in this direction.

We are glad to know that our Sunday School Literature has been introduced into many of our schools, and we earnestly urge the brethren to such efforts for its circulation as shall put the Sunday School Magazine, our Little People, the Sunday School Visitor and our Lesson Papers into every school in the country, as well as in our villages and towns.

We recommend the following resolutions, to wit:

*Resolved, 1st.* That we are gratified with the efforts of our Sunday School Secretary, Dr. Haygood, to furnish the Church with a fine Sunday School Literature, and we assure him of our prayers and labors for his success.

*Resolved, 2d.* That the Secretary of the Sunday School Board be furnished with the statistics of the Sunday Schools in the various charges of the Conference; these statistics to embrace the number of schools, the number of officers and teachers, the number of scholars, the number of volumes in library, the number of Sunday School Magazines and Lesson Papers taken, the number of schools promising to survive through the winter, the number of scholars converted during the year, and the number added to the Church from our Sunday Schools.

*Resolved, 3d.* That as Pastors, we will make it our special duty to gather up and furnish to the secretary of our Board at the next session of our Conference the statistics called for by the second resolution.

*Resolved, 4th.* That we will give ourselves with renewed zeal and purpose to the Sunday School work, that the year upon which we are about to enter may be more fruitful than even the past.

(Signed,) *G. H. WELLS, Chairman.*

It is recommended by the Board that Rev. A. J. Stafford be elected Sunday School Secretary for the ensuing year.

REPORT OF THE COMMITTEE ON THE BIBLE CAUSE.

The circulation of the Bible and the study of the Scriptures must ever be recognized as the great means to the Christianization of the world. While we note with pleasure the increasing and valuable acquisitions to religious literature as evidences of progress in Christian zeal and knowledge, yet they are but helps to the study of the Bible, and can never supply the place of the pure Word of Life.

“Search the Scriptures, for in them ye think ye have eternal life, and they are they which testify of me.”

The tendency of the times, the doubtful, perplexing and pernicious character of many of the publications of the day, indicate more than ever the necessity of placing the Scriptures in the hands of every one.

The impoverished condition of our section and the destitution in our midst, has necessarily restricted our efforts in the Bible cause, for the most part, to our own people, and have contributed but little to the dissemination of the Scriptures in foreign lands. We have, of late years, been beneficiary of the American Bible Society rather than contributors.

We are pleased to learn from the Rev. E. A. Bolles, the worthy agent of this Society for this State, that the work of disseminating the Scriptures is steadily going on in our midst; new auxiliary societies are being formed and old ones are being revived.

In conclusion, we offer the following resolutions for the adoption of the Conference:

*Resolved, 1st.* That the American Bible Society has been honored of God as an instrument of incalculable good.

*Resolved, 2d.* That we commend to the continued confidence and coöperation of our people, the Rev. E. A. Bolles, the long and efficient agent of the American Bible Society for the State of South Carolina.

All of which is respectfully submitted.

R. R. PEGUES, *Chairman.*

REPORT OF COMMITTEE ON BOOKS AND PERIODICALS.

Rev. L. Wood, Chairman of Committee on Books and Periodicals, presented the following report, which was unanimously adopted, viz:

A copy of the minuted proceedings of the Publishing Committee of the Southern Christian Advocate, convened in Macon, Georgia, on the 2d of November, 1871, and a statement of the financial condition of that paper, made on the first of same month, referred to your Committee, are herewith reported to be filed among the archives of the Conference.

The loss of twelve hundred subscribers during the year ending November 1st, 1871, is not to be accounted for in any depreciation in the intrinsic value of the paper, nor by want of fidelity on the part of either the preachers or lay membership of the patronizing Conferences, but by the circumstance that other publications of like character have been reduced in price to \$2 00 per annum. This disadvantage it is now proposed to remove by a corresponding reduction in the price of the Advocate, in which event no one can fail to perceive that a prompt, united and vigorous effort will be necessary to prevent financial embarrassment, especially as the loss of one dollar for each of the 6,960 subscribers (the number at present on the books) will be nearly double the sum remaining as a balance in hand on the 1st of November last, all of which, and more, was yet in the hands of agents. While the receipts from subscribers will be individually less, the cost of publication cannot be materially, if at all, reduced. To meet the demands of the paper, the subscription list should be doubled at least by the first of March next. To meet the demands of the Church it ought to be placed in every family of the Church within the patronizing Conferences.

The resignation of the editorial chair by Rev. E. H. Myers, D. D., to take effect on the first of January next, calls for an expression of approval of his administration by this Body, justly and eminently due and most cordially rendered.

We shall regret losing the so frequent sight of his familiar name, and we tender him our best wishes for his future personal prosperity and length of days.

We do most heartily approve of the election of Rev. F. Milton Kennedy, of the South Carolina Conference, to the Editorial charge of the Advocate.

The Committee of Publication, by this selection, have evidently put the

right man in the right place; and they have as certainly strengthened the obligation of every member of this Body to seek, by all proper means, to increase the circulation of our Conference organ.

Your Committee approve the recommendation of the Committee of Publication, that each of the patronizing Conferences shall annually elect the member to which it is entitled on said Committee.

We recommend the adoption of the following resolutions, viz:

1st. That we continue to approve the fidelity and efficiency of J. W. Burke & Co. as publishers of the Southern Christian Advocate.

2d. That we hereby tender to Rev. E. H. Myers, D. D., assurance of the esteem of this Body for his very able, talented and efficient services in the Editorial management of the Advocate for the last seventeen years.

3d. That we most heartily approve the action of the Publishing Committee in the election of Rev. F. M. Kennedy as Editor of the Advocate.

4th. That we endorse the action of the Committee in reducing the price of the paper to two dollars—one dollar to preachers—and pledge ourselves to labor for the increase of its circulation.

5th. That Rev. A. M. Shipp is hereby appointed the representative of this on the Publishing Committee of the Southern Christian Advocate.

Your Committee do not deem it necessary to go into further details in noticing the publications of the Church, than to recommend in the very strongest terms, the Quarterly Review, the Nashville Advocate, and all the Sunday School publications at Nashville, all of which are superior publications and worthy of universal patronage among our people.

Respectfully submitted,

L. WOOD, *Chairman.*

#### REPORT OF THE COMMITTEE ON DIVISION OF CHURCH PROPERTY.

The Committee to whom were referred the requests from Laurens and Tumbling Shoals Circuits, beg leave to submit the following resolutions for adoption by the Conference:

*Resolved, 1st.* That it is the sense of this Conference that when a Circuit is divided, each part is entitled to an equitable share of the common parsonage property.

*Resolved, 2d.* That whenever the division of a Circuit is contemplated and agreed upon by a Quarterly Conference, before the session of an Annual Conference, an arrangement for an equitable division of the parsonage property should be agreed upon at the time; and whenever the division is made by the Bishop at an Annual Conference, without previous agreement of the Quarterly Conference, such division of the property shall be made within one year after the division of the Circuit.

*Resolved, 3d.* That this adjustment should be based upon the amounts subscribed by the respective churches, (if those amounts can be ascertained,) increased or diminished, as the property at the time of division is more or less valuable than when it was purchased. But if this cannot be ascertained or approximated, then the whole question should be submitted to the arbitration of disinterested brethren, not connected with either charge, each Quarterly Conference to elect two, and the four to choose the fifth.

*Resolved, 4th.* That the same principle should be applied to the division of parsonage property on Districts, Circuits and Missions.

(Signed,) WHITEFOORD SMITH, *Chairman.*

#### REPORT OF THE COMMITTEE ON TEMPERANCE.

Whereas, It is apparent that the evil of intemperance generally prevails within the bounds of our territory, as well as throughout the country at large, and furthermore that the Church is deeply afflicted and embarrassed by it, we feel it to be our duty as far as we can under God to arrest this evil, and banish it from all our churches, both by example and discipline,

and to use our influence, both privately and publicly, to abate this curse that threatens in its onward march to destroy all that is good in man, and blight the happiness of thousands within our midst. Therefore,

*Resolved, 1st.* That this body of Christian ministers and laymen do express their unqualified condemnation of this evil, and do pledge themselves to coöperate with all organizations which have for their object the prevention of the manufacture, sale and use of spirituous liquors, except for medicinal purposes, and proper restrictions of law for the civil and divine.

*Resolved, 2d.* That the presiding elders and preachers in charge do bring this subject frequently to the notice of our people, and by the prudent exercise of discipline to prevent all connected with our Church from either manufacturing, selling, or using it as a beverage.

*Resolved, 3d.* That we rejoice to learn of the publication of a paper in the city of Columbia devoted entirely to the principles of temperance, and that we hereby recommend it to the favorable notice of our people and the public generally.

MANNING BROWN, *Chairman Committee.*

REMARKS MADE BEFORE THE MISSIONARY SOCIETY OF SOUTH CAROLINA CONFERENCE, AT SPARTANBURG, DECEMBER 15TH, 1871.

BY PROF. JAS. H. CARLISLE.

(Published by request of the Conference.)

All the remarks which will be made to-night will be found to gather around three simple thoughts. The first is this: *There is still a great deal of Missionary ground in the world.*

A map of the world is indeed a painful picture to look upon. Perhaps few men can study it thoughtfully and yet patiently or with self-control. There are yet entire continents, which have only here and there, at great intervals, a point of light. Look at Asia, the birth-place of our race and of the three religions which have ruled it. It has been said, "The Epistle to the Ephesians is read throughout the world, but there is no one at Ephesus to read it now." In that Epistle there was sounded an alarm of peculiar significance and force: "Ye were sometime darkness, but now are ye light in the Lord. Walk as children of light." The appeal was reasonable and appropriate. It is daylight in the world's history. Dress and act accordingly. But it was unheeded. Western Asia dared to walk out into the sunshine with her night-clothes of heathenism. They soon became her shroud!

And to-night there is a fearful amount of Missionary ground still in the world. Viewing the world as an estate of the Creator, there are many and large tracts of it to which His tribute gatherers have not yet found their way, not to speak of many others in which they are set at naught, or "shamefully handled."

But *there is a great deal of Missionary ground still in the Church.* We do not mean the term Missionary here to be used in a geographical sense. We do not mean that in Christendom, within the lines of church organization, there are many regions of greater or less extent, not covered by any efficient religious agency. Though this is true to a painful degree. But the meaning is that, distinctly within the Church, there is much, very much unappropriated material, much idle capital. Suppose we narrow our views to that interest which the word capital at once suggests. And let us restrict it even further, to the amount which should be at her disposal for the current support of the ministry. Look at the service rendered by the Church to the cause of humanity in a single respect. There are, through her agency, scattered all over our land, men, by profession and practice, trained to feel for human suffering. They are well known and accessible. Wherever a minister lives, there is one door at which any sufferer may freely knock. He might hesitate to approach your door or mine without an introduction. But he can go to the parsonage and freely and confidently ask. He may not always get money, through your fault and mine the minister's charity purse may be often empty, but he can get that which to our nature is often better than money—sympathy. And how readily and freely *we* send there in all the crises of life. The minister may have watched all night with a sick wife or a dying child. But we expect him with morning light, to wipe his eyes, and smooth his brow, and be ready to answer every knock at his door. We expect him to come at our slightest call, (we complain perhaps if he waits for the call!) and keep down the agony of his own heart, while he listens to our tale of sorrow, as if he had none of his own.

These eventful days are "shedding untimely snow" on many an anxious head. You and I find it taxes all our manhood, with all the help we can get from heaven and earth, to stand erect and bear our burdens as men, as husbands, as fathers. Our minister has all this, and added to all this, and beyond all this, he has that burden, which we do not, cannot know—the care of all the churches—solicitude for your soul and mine. If that which is our heaviest burden, is his lighter one, how heavy must be the other, and how unutterably crushing the combined pressure of both! I have heard a humane and thoughtful man say, "I cannot bear to drive a suffering beast, one hungry, or overworked, or chafed with the harness." The feeling is honorable to the human heart. But, my brother, perhaps up to this very night you have used, you have driven, a suffering minister. When you are sick, a suffering minister comes to cheer you, as you lie in the midst of comforts which he cannot procure for himself. In your last illness you will send for a suffering minister, to do all that man can do, to gird you up for your lonely and mysterious journey. A suffering minister will, perhaps, pronounce the benedictions of religion over your grave, and the man of God, as he looks upon the useless display of your

coffin, may feel that, of right, he can challenge it as withheld from his suffering children!

This question rises far above the region of satire or fretfulness, or insinuations, in which it is often discussed. Next to the earnestness with which a Christian man prays for his own personal salvation, let him pray for his minister, that his faith fail not in his hour of trial. Alexander once gave to a common soldier a sack of heavy valuables to carry to a certain point. Seeing the soldier about to give way, an unusual impulse of kindly feeling moving his cold and selfish bosom, he cried, "Carry it a little farther, my brave soldier, for it is all thine own!" Let a stronger, a more inspiring appeal be whispered to the overladen, sorely pressed minister: "Thou carriest more than gold! Men are looking at thee, to see how thy Master would bear himself in thy place!"

The Duke of Wellington, in one of his critical battles, came to a part of the field where some troops were under heavy fire, with little opportunity to return it. They seemed placed there just to tire out the enemy. The Iron Duke, with a degree of feeling unusual with him, said, as he rode by, "This is bloody work, my brave men! But we will see who can bear this *pounding* longest, the enemy or we!" The French were as daring and gallant in a charge, but the Duke depended on the passive, imperturbable Saxon element to stand *pounding*. And that won the day. Among the many glorious epitaphs which a Christian minister may covet, this is no ignoble one: "He could stand *pounding*, nobly, Christianly." To be pounded by a fault-finding flock, or by an illiberal board of stewards, who catechize you as to the size of your family, their appetites and tastes; as coarsely as they would examine an animal they were weighing on the public scales—this is not a very romantic life. No, my brother, but it may be far above all romance. It may be Christian discipline, heavenly tuition, the coarse but needful training of the king's son, before he is called to the throne. Whether the *pounding* be that which cuts, or that which bruises, it may be borne, until the sufferer escapes into that field of service where the salutation which insures his immortality will not be, "Well lone, successful and fully-paid-up servant!" but "Well done, good and faithful servant!"

A minister is not called upon to be unfeeling, but, if he can attain to it, let him be unfretting. Let him disappoint the narrow-minded steward who expects and desires this in self defence. Let the testimony be wrung from the cold official: "If our preacher would only have fretted or railed at us, I could have got along better. That brings on the engagement in a field where I can see my way and hold my own. But he would not. He gave me a receipt in full, and left the difference between our promise and our performance to be credited elsewhere. He does not seem to be made of iron or stone,"

The tear  
That dropped upon his Bible was sincere.

But not a muscle of the good man quivered as we 'settled up.'

But we are dwelling on the meaning of that word capital which, though very important, is still less so than the others. In the sense of the service, personal or professional, there is much idle capital in the Christian Church. There are congregations whose aggregate of business capacities has accumulated, and can wisely manage and make fruitful hundreds of thousands of dollars, perhaps millions. And yet it is a difficult task to get a few hundred dollars collected, or wisely disbursed for repairs or expenses. There are congregations where Christian parents spend annually hundreds of dollars to have their children taught to sing, and yet it is difficult to have the congregational singing properly led. There are congregations where a prayer meeting can scarcely be conducted if the minister is sick or absent. There are congregations where the lambs of the flock are allowed to wander away neglected for lack of Sunday-school teachers. There are Christian communities where, perhaps, it would be easier to organize a company of stalwart young Christian men to go on an Arctic expedition, than to get a dozen punctual and efficient Sunday-school teachers. In all these respects, and many others, of which these are only specimens, the Christian Church as a whole, each particular part of it, our Church, has a painful amount of capital lying idle.

But there is a great deal of *Missionary ground in your heart and mine.*

We spoke of the relation between the size of Christendom and the whole world. As Christendom is to the world, so is that portion of your nature which is thoroughly christianized, to the whole of it. Is that an unfair proportion? "UNITE MY HEART!" How appropriate and suggestive the prayer. Will you offer it at this

moment silently, as your attention is turned to it? Unite my heart, this divided, discordant, partially-christianized heart. My brother, there are hordes of savage instincts in your heart, which have not yet been taught to bow at the name of Jesus. There are large forests there, through which no quickening ray of light has made its way. There are rainless tracts of your moral nature, where nothing green can live. Zaharas, with only a narrow rim of verdure. These need to be pierced until the Artesian spring beneath is reached. There are frozen seas, and floating icebergs, brilliant but cold, chilling the air for leagues around. There may be a granite ridge which needs to be cleft through with a Mount Cenis tunnel, along which the messengers of love may hurry to and fro. My sister, there are torrents of womanly sentiment, and feeling, and passion, which for years have been idly babbling and brawling from the heights of your moral nature. Long since they should have been made to propel many a scheme of benevolence and love. My brother, perhaps your religion is imprisoned. You would think it perhaps equally disastrous, for it to leave your nature entirely, or to rule it supremely.

Does each one of these trains of thought carry with a disheartening power? Let us recur for a moment to the first. Will Asia ever come back? She had Christian influence poured around her in her infancy, but has led an irreligious, even dissolute life. Will she come back in her age and feebleness and take up again the story of Bethlehem? Or will the trump of doom startle her in her revels of sin? I do not know. You may take either answer to this question, and it furnishes motives to exertion and faith, but no excuse or warrant for inaction or despair. There is this blessed compensation running along the chain of duties which seem so complex. You cannot make one earnest effort, whether of prayer or means, or service of any kind, to benefit the remotest end of earth, which will not react on your own heart. And you cannot bring under an intenser religious feeling, any portion of your own nature, which will not fit you to give more willing or efficient aid to any Christian enterprise.

And now, Mr. President, can you take a little bill which I may be able to drop in your hands to-night, and give it a place in the great work of Christian benevolence? Can it be made to strengthen the zeal or faith of some tired laborer in the field of Missionary effort? Or, perhaps, it may carry comfort and hope to the widow or child of some good man who fell in the work. The last poisoned arrow which Satan was allowed to hurl at him touched him just at this point. As to his own future security, when freed from earthly wants, he was more than conqueror. But was it unchristian to feel an anxious pang when he thought of his household? But when from the darkness which lay before him, a voice, not unfamiliar to him, said, "Put your hand in mine and follow me, I will hide you in the grave, and be a God to your wife and children as I have been to you," he was willing to depart in peace. Is one of his children now sorely tempted to distrust the legacy which consisted only in an interest in the sympathies and prayers of her father's Church, and the promise of her father's God? And can you make this common-place bill to her, not simply a lucky raven with needed supplies, but a prophet of God, to attest His fidelity and truth? Then, sir, take it, and I charge you, keep it in your treasury only long enough to look wisely over the field. Perhaps what we give to claims like this, may, in a certain sense, be said to be all that remains of our year's work. What we have spent in the coarse and exacting demands of bread and meat, was rather spent in preparing to live, than in living. Even that which we give to support the ministry which feeds ourselves and our families, may be only an outer circle of selfishness. But if over and beyond these claims, we can give something to sustain the laborers elsewhere, then we seem to touch directly the great aggressive work of Christianity. Let us give as largely as the proportion of other calls will allow, and thankfully. Let the bill you drop in to-night be an articulate form of uttering that prayer, which in all ages has gone up from weary, anxious hearts, and will go up perhaps with increasing frequency and fervor, as the shadows of evening seem to fall around our race,

THY KINGDOM COME!

[*From the Methodist.*]

## THE CHURCHES IN 1871.

The most noteworthy events in the ecclesiastical history of the year relate to the advance toward union of churches of similar faith and organization; to the more distinctive position assumed by the Congregational Church in the United States; to the discussions on doctrines and ritual in the Episcopal churches in the United States and Great Britain; to the agitation for disestablishment in England; to the Old Catholic movement in Germany; to the progress of Protestantism in Papal countries; and to the condition of the mission fields.

### PROGRESS OF CHURCH UNION.

The reunion of the Presbyterian Church in the United States was perfected in the General Assembly which met at Chicago in May. The method of consolidating the Boards and other interests, which the two branches of the Church had previously maintained separately, formed the principal subject of consideration in the General Assembly. Plans covering the whole ground were agreed upon, and have been put in operation. The contributions to the Memorial Fund exceeded all anticipations. The effort was made to obtain five million dollars. More than seven million dollars were reported to the General Assembly as actually secured, and some additions have since been made. The movement for the reunion of the Northern and Southern branches of the Presbyterian Church has made no progress. The Southern Church has not shown a disposition to consider the subject favorably, and the negotiations have been dropped for the present. The negotiations for union with the United Presbyterian Church have moved more favorably. The Joint Committee of the two bodies met at Pittsburgh, in March, and presented their respective propositions for a basis of union. Differences appeared in the report sufficient to prevent immediate action, but both parties regarded the result as an advance toward union, expressed pleasure at it, and so reported to their General Assemblies.

The General Assemblies in Canada, of the Presbyterians and of the Scotch Presbyterians, have also taken action favorable to union. In the former body a draft of a basis of union has been referred to a future meeting. In the latter body a basis has been unanimously adopted and submitted to the Kirks and Presbyteries. The Presbyterian Synod of the lower provinces has also taken favorable action.

The union movement has made progress among the Presbyterian churches in Scotland, although some opposition has been developed against it.

The subject of organic union with the Methodist Episcopal Church was presented to the General Conference of the Evangelical Association, in October, by a committee of the General Conference of the former Church. A report was adopted favorable to union, with the consent of the ministry and the membership. But it was stated that consent does not seem likely to be obtained at present.

Correspondence on the subject of union has been enterchange between the General Synod of the Reformed Church in America, (Dutch) and the Synod of Ohio of the Reformed Church in the United States (German). It is, however, regarded unfavorably by the Eastern Synod of the latter Church.

A discussion with the ultimate object of testing the feasibility of attempting to bring about a union has been conducted between the General Christian Missionary Convention of the Disciples of Christ and the Baptist Association of Ohio. Several papers have been exchanged between the two bodies, stating the points of doctrine on which agreement may be had, and defining those on which there is difference. The result has been to show the Disciples more in harmony with the Baptists, and generally—except in the exclusive doctrine of baptism—with the Orthodox churches, than had been supposed before. A similar correspondence has taken place in Iowa.

Educational questions have been much discussed during the year. Besides the special attention which each denomination gives to its particular educational interests, conventions to consider the subject of education in general have been held in different places. The Baptists have held four such, two of which were in and related to the South. The Southern Presbyterians held an educational convention at Hunts-

ville, Ala., just before the meeting of their General Assembly. Besides giving the subject prominence at the State conventions, held in the Methodist Episcopal Church, a special Methodist Educational Convention for New England has been held in Boston. The needs of the freedmen of the South have been given prominent attention. Due attention has also been given to the designs of the Roman Catholic Church against our public educational systems, and public opinion has been awakened and consolidated to resist them.

#### NEW ORGANIZATIONS.

A denominational feeling has been strengthened among the Congregational Churches. By the withdrawal of the Presbyterian Churches, the care of the American Board of Foreign Missions was left almost exclusively with them. During the summer a new Missionary Society was organized, under congregational direction, to labor in Roman Catholic countries. In November, a General Council of the Congregational Churches in the United States, was held at Oberlin, O., which adopted a Constitution and effected a permanent organization. Care was taken to provide in the Constitution that the General Council should exercise no authority over the churches. Still, the influence of the movement will be to give the congregational body a compactness it never before had, while the organization of a system of societies, almost entirely its own, gives it a more marked distinction from other bodies.

A new general body of Lutherans was organized in November by the representatives of a number of Synods, which were not connected with either the General Synod or the General Council. It will probably consist of six Synods, and, it is claimed, will be the most numerous body of Lutherans in the United States.

A series of special meetings have been planned in the Society of Friends, (Orthodox,) for revival purposes. A number have been held in different parts of the United States, with marked success and spiritual awakening.

The Cumberland Presbyterians have resolved to engage in the foreign mission work.

#### THE EPISCOPAL CHURCHES.

The Triennial Convention of the Protestant Episcopal Church of the United States met this year. The agitation growing out of the Ritualistic controversy had risen to such an intensity since the previous General Convention, that many apprehended that the body would be called upon to take some action which would displease one party or the other, and lead to a schism. This was happily avoided. The policy was adopted and adhered to of admitting no alteration in the Prayer-Book. The petition for a definition of the term *regeneration* used in the office of baptism, which would satisfy the conscientious scruples of those who did not believe the doctrine of baptismal regeneration, were met by a paper, signed by the Bishops, declaring that the term as there used did not imply that any moral change had been effected by the ceremony of baptism. This declaration was generally accepted as satisfactory.

The Ritualistic controversy has caused more serious disturbance in the Church of England. The Ritualists were already determined in opposition to the decision of the Privy Council in the Mackonochie case, which condemned some of their practices. They were still further excited by the decision in the case of *Hebbert vs. Purchas*, given on February 23d, which condemned other of their practices. They lent their aid to the agitation for the disestablishment of the Church, which was kept up by the pendency in Parliament of Mr. Miall's bill for accomplishing that object. The so-called "Bennett case," involving the doctrine of the real presence, is now held in consideration for final decision by the Privy Council.

A movement for the closer affiliation of the Laity and Clergy, and for the introduction of the Laity into the councils of the Church, has made much progress in the Church of England. Synods, councils, or conferences, in which the Laity and Clergy have come together and discussed the interests of the Church, have been held in several Dioceses. In one Diocese, parochial associations have been held. A number of Church defence associations have been formed in opposition to the movement for disestablishment, which has been pushed actively, though it has obtained no definite success.

At the first Synod of the disestablished Episcopal Church in Ireland, which met in April, modifications in the Ritual and the Canons tending to the extirpation of sacerdotalism were proposed, and discussed with much urgency. They received the approbation of the majority in the Synod, but failed under the rules. The subject will come up at the next meeting of the Synod.

## THE OLD CATHOLICS.

The dogma of the infallibility of the Pope meets with formidable opposition among the Roman Catholics of Germany. Early in the year, Dr. Ignatius Dollinger, of the theological faculty of the University of Munich, declared against it. He met the demand of his superiors that he give in his adhesion by publishing a paper reciting his reasons for refusing to accept the dogma. These were based on theological grounds, and on the provisions of the civil law of his country. Afterward, a decree of excommunication was issued against Dr. Dollinger. In the mean time, his views had been accepted by many Catholics in Germany, and a considerable party had grown up. This party was protected in the exercise of its civil and ecclesiastical rights by the Bavarian and Imperial Governments, and soon assumed an attitude of defiance of the papal excommunications, and of the repressive measures of the Bishops. The adherents of the movement established their position on the ground that the dogma of infallibility, introducing a new and unheard of doctrine into the Church, had changed its character; that it was no longer the same Church. They assumed the name of Old Catholics. They declared the dogma dangerous to the State and to society, and announced the intention to seek the restoration of the purity and identity of the Church. The Congress of the "Old Catholics," held in Munich in September, was very largely attended, and attracted general interest. A declaration of principles was adopted, and the movement was given formal shape. A Conference of the "Old Catholics" of Switzerland, held at Soleure, about the same time, took similar action. The movement, most powerful in Germany and Switzerland, has sympathizers in Italy, Austria, and other Catholic countries. The Imperial Government of Austria has shown itself not averse to it.

## PROGRESS OF PROTESTANTISM AND RELIGIOUS LIBERTY.

Marked progress has been made during the year in the extension of Protestantism in Roman Catholic countries. The churches of the American and Foreign Christian Union in Mexico are in a healthy condition. The Baptists have established seven churches there, all of which are growing.

Protestant missionaries of several denominations labor with much success in Spain. They have organized churches in various places in the kingdom. Steps have been taken for the consolidation of the Spanish Evangelical Union at Madrid, and the Reformed Synod of Andalusia into one body.

Representatives of the Wesleyan, Methodist Episcopal, Protestant Episcopal, Presbyterian, Baptist, and other Churches, have established themselves at Rome, and begun the building up of Protestant churches. Steps are being taken for the erection of church buildings.

A committee appointed by the American branch of the Evangelical Alliance, to seek from the Russian Government the concession of religious liberty to the Lutheran inhabitants of the Baltic provinces, met Prince Gortschakoff at Friedrichshafen, Germany, and presented their petition to him. The Prince received the petition courteously, and said that the matter rested with the Emperor, avowing that both himself and the Emperor were in full sympathy with religious liberty, and would do all in their power to promote it. A petition presented by the European branch of the Alliance was rejected, on account of its containing language alleged to be objectionable.

## THE MISSION FIELDS.

The reports from the mission fields, except in China and Africa, are of progress. In China the missions have not recovered from the effects of the violent popular outbreak of last year, and suffer under the apprehension that the outrages may be renewed. Some of the missions in Africa languish under various causes, the principal of which is the unhealthiness of the climate. A great stimulus has been given to the missions in India and in Mohammedan countries by the enterprise of the Woman's Missionary Societies, whose laborers are welcomed where other missionaries are excluded. The labors of the London Missionary Society in Madagascar continue uninterrupted. The zeal shown by the Japanese in seeking Western education, and in inviting Western enterprise, betokens well for the ultimate success of missions in that country. The missionaries are treated with respect, and the women sent out by one of the Woman's Missionary Societies, have been received with gladness. The receipts of the societies continue good, but their enterprises extend more rapidly than their means increase, and there is a general call for more laborers.

# THE UNIVERSAL LIFE INSURANCE COMPANY, 69 LIBERTY STREET, NEW YORK. THE ORIGINAL STOCK LIFE INSURANCE COMPANY OF THE UNITED STATES.

### OFFICERS.

WILLIAM WALKER, President.

HENRY J. FURBER, Vice-President.  
GEORGE L. MONTAGUE, Actuary.

JOHN H. BEWLEY, Secretary.

E. W. LAMBERT, M. D., Medical Examiner.

This Company offers the following important advantages to those about effecting insurance on their lives :

1. Insurance at Stock Rates, being from 20 to 30 per cent. less than the rates charged by mutual companies.
2. Each Policy-holder is regarded as a Stockholder to the extent of one Annual Premium on his Policy, and will share in the profits of the Company to the same extent as a Stockholder owning an equal amount of the capital stock.
3. Every Policy issued by the Company is non-forfeitable, and contains a clause stating its exact surrender value.

*Before insuring your life or accepting the Agency of any Company,*

### READ THE FOLLOWING:

A lengthened experience has demonstrated that the rates of premium ordinarily charged by life insurance companies are from twenty-five to thirty per cent. in excess of what are necessary for a safe and legitimate conduct of the business. In other words, carefully and prudently managed companies charging "mutual" rates have been able to return to their policy-holders from twenty-five to thirty per cent. of the amount charged for premiums.

When life insurance companies were first organized, reliability of the data upon which premiums were constructed had not undergone the test of experience. It was thought, therefore, no more than common prudence to adopt a scale of premiums which would, in any event, meet all the presumed and unforeseen contingencies of the business.

Availing themselves of this experience, the Directors and Managers of the *Universal Life Insurance Company*, at its organization, adopted a scale of premiums in accordance therewith, and which has proved to be fair and adequate, and all that was necessary to meet the requirements of the business. These premiums are about twenty-five per cent. lower than those charged by mutual companies.

It also appeared, inasmuch as the rates so established were as near as could possibly be determined *fair* rates, and not in excess of what insurance has previously cost the policy-holders in mutual companies, that any profits arising from prudent management justly and properly belonged to the stockholders of the company, for the risk incurred by them in undertaking the business.

Experience has shown that there are sources of profit in the *practice* of the business which *theory* will not admit of being considered as elements in the calculation of the premiums. These results form a saving in the mortality of the members of a company owing to the medical selection of good lives, a gain in interest on the investments of the company over that assumed in the calculation of its premiums, the profits derivable from the lapsing and surrender of policies by the members, and from other minor sources.

Profits from these sources, in a company possessed of a capital of \$200,000, and doing a fair amount of business, would give to the stockholders dividends largely in excess of what were counted on by the Directors of the *Universal* at the time of its organization. They have, therefore, determined to divide among the policy-holders of the company a large part of the profits accruing from the sources named, all of which have heretofore been divided among the stockholders.

The plan adopted for such division is as follows: Every person who may hereafter insure with the *Universal* will, for the purposes of division, be treated as a stockholder to the extent of one annual premium upon his policy; and will share in the profits of the Company to precisely the same extent as a Stockholder owning an equal amount of the Capital Stock.

## COLUMBIA ADVERTISEMENTS.

By this system of insurance, original with the *Universal*, the policy-holders secure the following important advantages.

1. Insurance at the regular "stock" rates, requiring a primary outlay of about twenty to thirty per cent. less than that charged by mutual companies, and which is equivalent to a yearly "dividend" paid in advance of that amount on mutual rates. This low cost of insurance is worthy of attention. Since its organization, this company has received in premiums from its policy-holders the sum of \$1,517,000. To effect the same amount of insurance in a mutual company would have cost them an initial outlay of \$2,000,000. By allowing its policy-holders to retain, in their own possession, this excess of \$483,000, the *Universal* has virtually paid them a "dividend" of \$483,000, and paid it, too, in advance, instead of at the end of one or more years. It is impossible to find any example of a mutual company furnishing insurance at so low a cost by returning to policy-holders an equal amount upon similar receipts.

2. Participation in the legitimate profits of the company, upon a plan which secures to the policy-holders the same treatment which directors and stockholders award to themselves. This system of participation, in connection with the low "stock" rates of premium, must necessarily secure to the policy-holders every possible advantage to be derived from prudent and careful management.

The low rates of premium compel economy, and, independent of participation, guarantee to the policy-holder his insurance at a rate which is not in excess of the cost in well managed mutual companies; while, by the proposed plan of participation in what may be considered the legitimate profits of the business, the cost will be still further diminished.

Thus, by the combined advantages arising from low stock rate and participation in profits, it is confidently believed the *Universal Life Insurance Company* offers insurance at its lowest practicable cost.

Those of the existing policy-holders who desire to participate in profits under the new plan can do so by making application to the head office, or to any agents of the company.

*The company is in a sound financial condition. Ratio of assets to liabilities 136 to 100.*

Good reliable agents wanted, who will deal direct with the New York Office, and to whom full general agents' commissions will be paid.

Extract from an editorial in the *American Builder and Journal of Art*,  
published in Chicago, November, 1871:

“A SOUND COMPANY.—Among the Insurance Companies that are paying their losses in this city, without grumbling or jockeying, foremost stands the *Grand Old Liverpool, London and Globe*. Quick as the lightning could carry it, after the great fire, came word from the head office to *PAY ALL LOSSES IN FULL*—nor are the American Securities to be touched for the purpose, but the million of dollars are to come from across the sea.” \* \* \* \* \*

“At this writing, we chance to know that the Liverpool, London and Globe has been paying its losses *IN FULL*—that is to say, has not employed a set of jockeys to use every cunning device for inducing Policy-holders to accept less than the full amount,” &c., &c.
